

JuiceCo Scenario

JuiceCo is a newer brand in the better-for-you food arena. It is less than 10 years old and is on its way to becoming a lifestyle brand. JuiceCo has a vision to become one of the most trusted nutrition and wellness brands, and it takes pride in its products being fresh, nutrient-dense, organic, unprocessed, and delicious. JuiceCo has a vision to encourage a healthy lifestyle. JuiceCo communication focuses on providing both product and lifestyle information.

The most popular JuiceCo products include smoothies, bottled juices, grab-and-go meals, soups, snacks, and other nutritious items. They are viewed as a premier source for grab-and-go healthy food products.

The target consumer can be described as educated at college level or above. They lead busy lives balancing work, family, and activities. They aspire to be high achievers. They value health. They look to JuiceCo products for nutritious food.

JuiceCo consumers recognize that this is a premium product and believe it is worth the price. They are highly social and readily share their knowledge with friends and through social media. They like new experiences and trying new products. Recommendations, whether from friends or opinion leaders, are important to them. Opinion leaders they follow include celebrities, fitness leaders, and athletes. TV and newspapers do not score high as a way to reach this target. This group is engaged online.
